

21st October 2015

SRE/KC/W/7/8/211015

Dear Parent,

Due to government changes to the English Curriculum, the way in which we present pupils' targets and achievements in English is going to change.

From MLG2, rather than a National Curriculum level, we will be reporting in the numbers 1-6. These numbers correspond to an output at GCSE where students, in English, will be given a number rather than a grade.

A table has been included below to show how the number that you will see on SERCO corresponds to what your child is likely to achieve at the end of Year 11.

New GCSE Grade	Mark entered on Eportal
9	6
8	5
7	5
6	4
5	4
4	3
3	3
2	2
1	2
U	1

These changes however, are an interim measure as English and Maths are the first subjects in which changes to curriculum have been introduced.

As always, if there are any questions or queries about this system please do not hesitate to contact me.

Yours sincerely,

Sarah Read
Head of English
